Hiring Manager
Stock associate
Hollister
4950 Pacific Ave
Stockton, CA 95207
Dear Hiring Manager:

Hollister is a well known clothing store around California, a fashion industry that not only i but hundreds of people buy from Hollister trying to get a job would be a good work ethic to work as a stock associate. For that reason i I choose Hollister to work and get more understanding of Hollister fashion style and work organization.

A stock associate helps in restalking new clothes for the season, providing qratcs, opinions and suggestions for customers. Social abilities are just the basics to work at a retail store, a keen eye in color,style, season changes and catched up new trends around the corner. I for one worked as a photographer and videographer for 4 years. Color and style are only the basics in the foundation of video editing. My art experience winning many awards and certificates help me prove that I understand color theory and season color complementary colors.

Applying for this position excites me to receive a reply from Hollisters hiring Manager and will be waiting patiently for a responds. I will follow threw with any meeting/Interview if needed to attend, will send out an email following up in 2 days if no response was received.

Sincerely,

Ashley rojas Gonzalez
